2,808 students served through School Supplies!

ADFAC's 2015 School Supplies program was amazing! Our goal was to serve 2,600 - 2,800 students; the need for assistance and the support we received allowed us to serve a record-breaking 2,808 children.

This success was made possible by the generosity and time of many in our community, including over 200 volunteers, 160+ donors and grants from local and regional foundations.

THANK YOU!
